

# Sweet Cheeks®

40% Glucose Gel

## INTENDED USE / CLINICAL BENEFIT:

Sweet Cheeks® is a 40% glucose gel made specifically for babies and designed for clinical convenience. The single-use graduated oral syringe provides controlled administration for all infants, regardless of size.

## WARNINGS / CAUTIONS:

- Hospital use only.
- **FOR ORAL USE ONLY.** A circular symbol with a diagonal line through it and the number '2' inside, indicating that the product is not for oral use.
- Single patient use.
- Administer according to baby's weight.
- Follow hospital procedures.
- Discard cap and syringe immediately after use.

## INSTRUCTIONS FOR USE:

1. Open package with gloved hands.
2. Determine amount according to baby's weight and hospital procedures.
3. Remove syringe cap and discard immediately.
4. Discard any excess gel beyond the correct amount.
5. Dry the buccal cavities with a sterile 2x2 gauze pad.
6. Place partial amount on gloved fingertip.
7. Massage into buccal mucosa, alternating sides until complete.
8. Discard syringe and packaging.
9. Breast or bottle feed/monitor baby according to hospital guidelines.

## STORAGE AND DISPOSAL:

Store between 35°F  95°F
