

Patented PneumaPure® filter technology allows airflow while blocking pathogens such as MRSA, C. diff, E. coli, coronavirus, and more

Pureshield™ fabric creates a waterproof exterior preventing pathogen ingress and makes mattress easy-to-clean with no laundry needed

Safeweld® hermetically-sealed seams keep pathogens out by eliminating stitching holes

Dandle®PURE Neonatal Mattress

With Pneumapure® filter

DandlePURE Neonatal Mattress features:

- Fits standard radiant warmers, incubators, bassinets, and cribs
- Multi-patient use
- Pureshield fabric is biocompatible
- Fabric and integrated filter can be wiped clean with approved hospital disinfectants
- Core made of viscoelastic foam (memory foam)
- DEHP and latex-free
- 2-year warranty against manufacturer defects

A cleaner, safer alternative to traditional NICU mattresses.

Rest easy, knowing your babies are safer from the start. DandlePURE Neonatal Mattresses with PneumaPure filter technology can replace your standard mattress while offering 3-way protection from harmful pathogens. PneumaPure is a clinically-proven, lab-tested filter for soft surfaces.

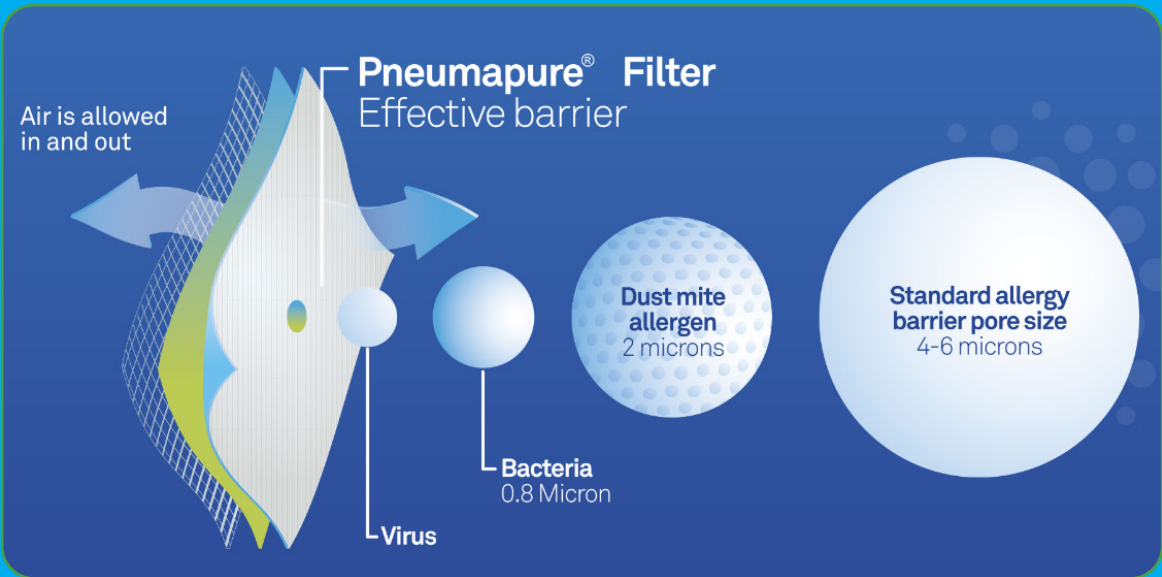

DandlePURE protects patients through:

- An integrated PneumaPure filter that prevents ingress of pathogens and allergens while allowing air to escape, keeping the mattress soft and comfortable.
- Soft, durable, high-performance Pureshield fabric not only blocks out contaminants, but is waterproof.
- Safeweld air-tight seams (no stitching holes), which are heat-sealed to provide a complete barrier.

Rest assured. DandlePURE.

Dandle®PURE Neonatal Mattress

The patented PneuMapure® filter technology blocks bacteria, allergens, mold, and deadly viruses while maintaining sufficient breathability.
